Career Objective

Enthusiastic IT student with a strong foundation in Java, Web Development, and AWS. Passionate about problem-solving and creating scalable applications. Eager to learn, enhance my skills, and contribute to innovative projects.

Education

B.TECH – Information Technology

(2022– 2026)

Karpagam Institute of Technology, Coimbatore

Current CGPA 7.02

Technical Skills

- Programming Languages: Java, Python
- Web Technologies: HTML, CSS, JavaScript, Reactjs
- Cloud: AWS (IAM, S3, Lambda, EC2, DynamoDB)

Projects

1.Responsive Portfolio Showcase

Description: Developed a responsive personal portfolio website to showcase projects, skills, and achievements using HTML, CSS, and JavaScript.

Technologies Used: HTML, CSS, JavaScript, Flexbox, Grid, Responsive Design.

Key Highlights:

- Designed a mobile-friendly layout for a seamless user experience.
- Applied modern web design techniques for better interactivity.
- Organized projects, certifications, and experience effectively.

2.Weather Application

Description: Developed a weather application using React to fetch real-time weather data from an online API.

Technologies Used: React.js, REST API, JavaScript, CSS.

Key Highlights:

- Integrated a weather API to display real-time weather updates.
- Built a responsive and user-friendly interface using React.

3.Inventory Management App

Description: A web-based inventory management system to add products and locations, track product movements between locations, and generate real-time movement reports with updated stock details.

Tools & Technologies: Flask, SQLite, HTML, CSS, Bootstrap.

Key Highlights:

- Added support for dynamic product and location management.
- Enabled product transfers and real-time stock reports.
- Designed a clean UI with reporting features for movement history.

Certifications

Responsive Web Design Certificate – freeCodeCamp

(May 2024)

- Proficient in HTML, CSS, and Responsive Design principles, with experience in building user-friendly and adaptive web interfaces.

DSA in Java Programming – NPTEL

(Jul 2024)

- Covered DSA concepts and enhanced logical thinking in Java.

AWS Certified Cloud Practitioner(CLF-C02)

(Apr 2025)

- Demonstrated understanding of core AWS services, cloud principles, deployment models, and security best practices.

Cloud Computing – NPTEL

(May 2025)

- Accredited NPTEL certification validating skills in cloud computing fundamentals, virtualization, service models, and distributed systems.

Additional Information

Soft skills: Quick learner, Adaptability, Critical thinking, Team work.

Achievements: Participated and reached the final round in an inter-college hackathon
